“ Marge was a sweet person and I enjoyed birding with her. She will be missed.

“ John and Marge are my uncle and aunt on my father's side. I have some wonderful childhood memories of them. I remember going to their house in Braintree, MA with my younger brother, and it was such a treat because they had great toys and games. I also recall camping with them in the White Mountains. I think we went to Polar Caves in NH on that same trip, and laughed at the names of some of the caves, like "Orange Crush" and "Lemon Squeeze." The last time I saw Aunt Marge was when she and Uncle John came to visit me and my dad in Canandaigua about ten years ago. They brought a thoughtful gift for my newborn son, and it was a great visit. She will be missed by her family and her friends.

“ So very sad to hear of this lose. Marge was compassionate and passionate about the many issues that she held dear. We learned together, laughed together and even sheltered from the storm together with her cat and my two. go in peace and grace my friend.

“ We've known Marge & John since we came to the Golden Isles in 2005. They invited us to our first gathering at Marshes of McKay, for Christmas, which made us feel very special. As long time birders from Mass. we enjoyed them until they moved to Savannah. She will be missed, very much. John helped us learn about birding in the South, and have enjoyed knowing him, and learning from him as we have lived here. Our condolences to him.
